

TRAINING

Let your team access the technical expertise and field experience they need for the most up-to-date industry best practices, technological advances and measurement methodologies.

When it comes to hydrocarbon measurement and analysis, no two operators' needs are alike. SPL can help your team close mission-critical knowledge gaps with field or classroom training—taught by some of the best in the business.

In the field or in the classroom, our custom training courses range from 1–3 days and are among the most informative and effective in the energy industry.

Measurement Training Topics:

- Chart Recorders
- EGM Calibration
- Orifice Plate Inspections
- Measurement Station Witnessing
- Natural Gas Procurement
- LACT Measurement
- Pipe Provers
- Liquid PD Meters
- Provers
- Water Draw
- Meter Proving
- Master Meter Proving
- Meter Swap Out
- Liquid Sample Procurement
- LACT Sampling
- Liquid Turbine Meters
- Liquid Sampler Maintenance
- Liquid Coriolis Meter
- Field Shrinkage
- Sediment & Water Monitors
- API Gravity
- Gas Calculations
- Liquid Calculations
- Basic Electronics
- Physical Properties
