

FIELD SERVICES

Get the convenience of outsourced field services while mitigating hydrocarbon measurement inaccuracies and sample procurement chain of custody concerns.

With more than 125 field technicians at strategic locations across the U.S. to serve all major plays, SPL has the resources to handle all field measurement and sample procurement needs—providing our customers with:

- Convenience of outsourced measurement and sample procurement
- Unbroken chain of custody for samples between the field and the lab
- Timely turnaround for analytical results and certificates of analysis
- Vital monthly well analysis data
- Total measurement accuracy assurance

Our customers include upstream and midstream operators for both onshore and offshore. SPL field technicians provide:

- Installation, repair and maintenance of electronic measurement systems and chart recorders
- Meter calibration
- Meter proving
- Meter tube repair
- Data collection and measurement calculations
- Gas and liquid sampling

All sample procurement is conducted by highly trained field technicians and ensures a representative sample with an unbroken chain of custody between the field and the lab. For more information, contact info@spl-inc.com or call (877) 775-5227.
